

## THE BLACKSMITH - FORGING FUTURES

Forging life skills, creating confidence and promoting individual responsibility

The forge at Urban Crafts Foundation provides an environment to develop academic, practical, social and artistic skills. It is suitable for a variety of young people such as those with behavioural problems or those who struggle in a traditional academic environment.

Being a working forge student; you will be involved in a variety of tasks. The project is designed to work along the lines of an "apprenticeship". Students will assist the blacksmith in their work, and work on their own projects. The provision will provide instruction in art, maths, welding and traditional forging. Students are also encouraged to take responsibility for themselves and others around them. They can gain confidence in having opinions and ideas and to provide a real life working environment to them progress into adulthood.

### £110 per person, per day

Students would gain the most by regular attendance of 2 days a week in conjunction with school or tutoring.
