

Hands On

Animal focussed land-based vocational training.

Hands On is an integrated programme of farm, environmental and land-based activities designed to build young people's confidence and self-esteem, address challenging behaviour, develop new skills and raise aspirations.

This project is aimed at young people who learn better through 'doing'. Ideally suited to young people not coping in mainstream curriculum whether it be through poor school attendance, low or under achievers, low confidence or self-esteem, additional needs or exhibiting challenging behaviour, and for people interested in future careers in land-based industries.

Achievements are recognised through national vocational qualifications:

Level 1 land-based qualification in Animal Care
Level 1 land-based qualification in Estate Maintenance
Level 2 Animal Care

The project is designed to be attended on a regular basis, up to 2 days per week, in conjunction with school, tutoring or other alternative provision.

£120 per person, per day (as of 1st Sept 2024)

plus a City and Guilds Registration fee of £200 per course

Working in a 6:1 student:staff ratio. If additional support is required, this must be arranged separately.
