

# HANDS ON

Animal focused, land based vocational training

Hands On is an integrated programme which incorporates farm, environmental and land-based activities. It is designed to build young people's confidence, address challenging behaviour, develop new skills and raise aspirations.

This programme is aimed at young people who learn better through doing. It is designed to support those who struggle with the mainstream curriculum, whether through poor school attendance, poor grades, low self-esteem, special needs and/or challenging behaviour. Those who are seeking a career in land based industries are also welcome.

**City & Guilds**

## Qualifications

Level 1	Land-based qualification in Animal Care
